Analysis of Population Deviation 2001 Election Districts

Ideal Population Deviation of BART Election Districts Following 2010 Census

Election districts are redrawn every ten years following the U.S. Census.

According to the US Census, the total population within BART's Election districts is 3,364,531. There are nine BART Election districts and the 2011 ideal population for each new district is 373,837.

During the past ten years, the total population within BART's jurisdiction increased by 195,240 and the ideal district population by 21,694. Our initial analysis determined six districts (1,3,4,6,8 and 9) contained less than the new ideal population and three districts (2,5 and 7) exceeded it.

A map illustrating the population deviation of 2001 BART Election Districts following the 2010 Census is included here

2011 Redistricting Process

Re: Summary of 2011 Redistricting Process

2011 Redistricting of BART Election Districts

The 2011 process of redistricting BART election districts has been guided by traditional redistricting principles and options for new districts have been developed with particular attention to the unique character of the San Francisco Bay Area. There has been an extensive effort to encourage public participation and particular care has been taken to maintain communities of interest.

Community Meetings

The Board of Directors conducted ten informational community meetings to provide an opportunity for public input on the redrawing of the nine BART election districts. There were ten meetings between October 3 and October 13, 2011. The meetings were held in Richmond, Pittsburg, Oakland, Fremont, San Leandro, Lafayette, Livermore and in San Francisco in the Mission, Chinatown and in Bayview.

At each meeting there were presentations on the Redistricting process and the population deviation from the ideal of the current districts. Participants were briefed on traditional redistricting criteria and asked about their communities of interest. They were given local district maps and the population of communities and neighborhoods. These materials are available on this site.

Outreach

In order to maximize community involvement in the redistricting process, BART staff conducted extensive outreach prior to the community meetings. To accommodate a wide range of participants, the meetings were held at a various times of the day, both in the evening and during the lunch hour and at a variety of locations. At least one meeting was held in each of the nine election districts.

Our outreach effort included a multilingual notice in English, Spanish, Chinese, Korean and Vietnamese which was sent to Bay Area wide media, city and county elected officials, our database of Community Based Organizations and BART email distribution lists. There were also station notifications through BART Times newsletter and the Destination Sign System. Our Community Relations staff visited community leaders to

invite them to the meetings and engaged CBOs in choosing the locations for our meetings and in publicizing the meetings to their constituents.

Documentation of our outreach efforts is available from the Office of the Secretary to the Board. The meeting handouts are available on the BART website for download. And, audio recording of each meeting is also available from the Office of the Secretary of the Board. Translation services were available at each meeting.

Proposed Redistricting Plans

After public input and in consultation with the Board of Directors we developed two options which were presented at your November 22, 2011 hearing. Option A gained the most positive interest.

Option A makes a significant change in Districts 5. It removes District 5 from Contra Costa County and rotates the balance of the districts to make them more compact.

Option B is a minimal change map which equalizes population with local adjustments.

Adoption of New Election Districts

Option A with a minimal amendment affecting District 7 and District 3 was adopted by the BART Board of Directors on December 1, 2011
